New Draft Coding Guidelines

- Coding clarification on:
 - General body-part values *see B.2.1c*
 - When to code multiple procedures *see B3.3b*
 - Coronary artery values *see B4.4*
 - Fusion of multiple joints *see B3.13*
 - Displaced and nondisplaced fracture *see B3.14*
 - Distinguishing between Division and Release *see B3.11 and B.3.12*
 - Transplantation *see B3.15*
 - Bilateral body-part values *see B4.5 first sentence*

¹ In calculating the number of codes in ancillary sections B-D for 2005, it was assumed that the Identification Not Requested (INR) value would be used for hospital inpatient reporting. When all possible specific values are taken into account, the total number of codes in sections B-D is 333,106.

- Procedures involving endoscopic assistance *see B5.1 and B5.2*
- Procedures involving indwelling devices *see B5.4*
